EDUCATION

Jaypee Institute of Information Technology – Noida, India,
Bachelor of Technology (B.Tech) in Computer Science and Engineering (CSE)

Jul 2023 – Jul 2027 | Noida

EXPERIENCE

InAmigos Foundation 🌐, *SDE Intern*

May 2026 – Jun 2026 | Remote

- Worked on frontend and backend development using React.js and Node.js.
- Developed responsive web pages and integrated REST APIs, improving application functionality and user experience.
- Collaborated with a team to optimize web solutions and support the development of 5+ features.

Technical Coordinator 🌐, *Rapid Programming Hub, IIIT Noida*

Jul 2024 – Jun 2026 | Noida

- Conducted **C++ & DSA** sessions for **100+** students, addressing doubts and enhancing their thinking skills.
- Worked with a team and made 5+ test cases for coding contests, including difficult cases, which improved correct scoring by 20% and helped participants have a better experience.

PROJECTS

Code Reviewer 🌐, *React.js, Node.js, Express.js, Gemini API*

Sep 2025 – Nov 2025

- **Built a full-stack AI code review platform** using React (Frontend) and Node.js/Express (Backend) to help developers test and analyze code snippets.
- **Integrated high-speed LLaMA models via the Groq API** to automatically scan code for bugs, detect security risks, and offer optimization tips.
- **Designed clean and professional Markdown reviews** that clearly highlight issues found, suggest the corrected code, and offer alternative approaches for developers.

FakeSpotter 🌐, *CNN, Autoencoder, Vision Transformer (ViT), OpenCV*

Jan 2026 – Apr 2026

- Built a multimodal AI system to detect deepfake images, videos, and fake news articles using hybrid and transformer-based models.
- Developed deepfake detection using CNN and Autoencoder models for image and video analysis.
- Created a responsive web interface using HTML, CSS, and JavaScript, React for uploading and analyzing media files.
- Integrated OpenCV and Python for preprocessing, face detection, frame extraction, and real/fake prediction.

TECHNICAL SKILLS

- Programming Languages: C, C++, Python, JavaScript
- Full Stack Development: React.js, Node.js, Express.js, MERN Stack, REST APIs
- Backend & Databases: MongoDB, SQL, API Integration, JWT Auth
- Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS
- Tools & Platforms: Git, GitHub, Vercel, VS Code, Postman

ACHIEVEMENTS

- **LeetCode**: Solved **500+ problems** (Max Rating **1495**, 365+ day streak Badge), **Pupil(1240)** at **Codeforces** and **GeeksforGeeks**: Solved **200+ problems**, **3★** rating, **50+** problems on **AtCoder**.
- **Frontend Battle** – Vibe Coding **Hackathon** | Reached **Final Round** among Top **30** out of 4000+
- **Code Ctrl Programming Contest**: Runner-Up (**2nd/25+ teams**).
- **Knuth Execute 25.2 (DSA Contest)**: Ranked **7/100+ teams**.

LEADERSHIP & EXTRA-CURRICULARS

National Player & Coordinator – IIIT Table Tennis Team:

- Won multiple inter-college tournaments in both **singles and team events**.
- Managed and led my team, showing strong **team management and teamwork skills** and Secured **1st position in my college (IIIT)** consistently since my **first year**.

CERTIFICATES

- [HackerRank Certification – Algorithmic Thinking \(Intermediate\)](#) 🌐
- [Electronic Arts – Software Engineering Job Simulation](#) 🌐
- [2nd Place – Coding Arena \(Top 0.7%\)](#), [HackerRank – Listed on Unstop](#) 🌐
- [AI for Bharat\(AWS\)](#) 🌐
